ABOUT US

ACID JAZZ,
FLIP-TRIP FUNK,
DEEP-CHILL-TECH,
OR
RABID DOWNTempo?

YES.

Started in a bedroom in Heidelberg, Germany, around 2017, this jam project now consists of at least 9 musicians, who gather to improvise and share their energy in unpredictable and wild sessions.

It's impossible to pinpoint a single style or category in which Fat Tea performs. We are mostly driven by moods, which take us and our audiences to places we could not describe or ever visit again - it's all improvised and created on-the-go, never to be experienced in the same way again.
