

JOHNNY MATTERS UNCHAINED

Johnny Matters aka Stefan Wipfli originates from the ancient-mystical mountains of Switzerland. Molded from a rustic environment, a profound soul grew up to be a determined fighting spirit. If it sounds like an animal, you're not completely wrong. Johnny Matters 'The Wolf' is the soul animal of Stefan and reflects as a symbol the dark and concealed corners of his psyche.

The restless wisenheimer rattled his paws to explore the world and found tough allies in the cultural metropolis **Hamburg**. Together they're combining musical ideas from their heads with the sincere lyrics of Johnny and creating detailed songs with spreading energy.

The **Rock group Johnny Matters Unchained** was developed in **2015**, consisting of Dave Leonard (Guitar), Till Siebenvier (Bass guitar), Freddy Nelson (Drums) and Johnny (Vox/Synthesizer).

In the meantime they found recognition in Hamburg; Sold out EP-release at Bar 227, many gigs in various locations and acclaimed videoclip-release with a new concept-show march 2017 at Knust, are just the tips of the iceberg. But also outside this beloved city, they received appreciation in Northern Germany and Switzerland.

For your better insight please read a review [HERE](#) (lower third).

The unchained Wolf Johnny Matters came to town and wants to tell you his story with the help of his urban friends.
