

Afrikun:

This new audiovisual project from “Kumar Sublevao-Beat”, together with the multi-instrumentalist duo” Machete Horns”.

The main goal from this Band is the research and tribute to the many different African tribes through music. Coming from every single corner in Africa ,digging any kind of rhythms, samples from traditional instruments and ethnic chants.

Take it to the musical urban scene with an unusual Musical format, where audiovisuals, percussion, brass, synths and Mpc give life to the cultural and artist meaning from this Project, and specially the identity from these young Cuban musicians as also “Africans”.

Integrantes
