Decades, a modern metalcore band hailing from Kiel, was founded in 2021 by four talented members: Niklas, Yannik, Chris, and Thorben. Their musical journey took flight in 2022 with the release of their debut EP, "Time Illusion," which graced all major streaming platforms alongside a captivating music video for their single "My Gravity."

Embracing their distinctive sound, Decades embarked on a relentless journey, celebrating their live debut in the same year. They took the stage by storm, performing at numerous concerts throughout 2023 in the north of Germany. Venues like Astra Stube in Hamburg, Alte Mu in Kiel, and Juki42 in Ahrensburg bore witness to their exceptional performances alongside esteemed bands such as Heartbound, Substation, and Saviourself. One highlight was their prominent presence as the only modern metalcore band at the esteemed Mosh im Mai festival in Kiel in April 2023.

With musical ingenuity, Decades intricately crafted their songs, seamlessly blending progressive metalcore with captivating ambient elements. Audiences were drawn to their powerful breakdowns juxtaposed with clean guitar passages, while progressive rhythms interwove seamlessly with catchy riffs and enchanting vocals.

Currently, the band is crafting their first full album, promising fans an even greater exploration of their sonic prowess. In 2023, eager listeners can catch a glimpse of what's to come through the release of new singles, a testament to Decades' unwavering commitment to pushing the boundaries of modern metalcore.

“The troupe delivers a top performance and their debut single “Gravity“, for which they also released a music video in July 2022, must not be missing from the setlist. In general, the sound in the R ucherei is unbeatable! Every sound is right, no feedback, no static.“

DREMUFUESTIAS.DE

„Holy shit! That’s exactly what I thought after the first minute of “Time Illusion“. There I had set myself up for a pretty relaxed listening session, and there comes such an official board out of the headphones! [...] If they can already set their own bar so high with their debut EP and at least maintain this level, the established bands can really warm up.“

SYLB.EU

“The German band decades. released in the middle of this last month of August, the album entitled “Time Illusion“. With 7 songs, it presents a heavy and technical Metalcore, which flirts with Progressive Metal. One of the highlights is the great “Lotus“, capable of balancing weight and aggressiveness, without leaving aside the weight.“
