

evermoon is an alternative music project created by Frankfurt Metropolitan Area-based artist Tejas Ramakrishna. Originally from Bengaluru, India, the multi-instrumentalist songwriter was previously part of indie duo No Home that garnered attention from international artists such as Tom Misch in 2021 through the Prospect 100 Global Music Competition. In the past 5 years, evermoon's discography has grown vastly and includes music from a wide variety of genres like alternative metal, folk pop, and electronica. The latest EP, Idylls, comes after the artist's recent relocation to Germany for university and is preceded by the 10-track concept album ABRACADABRA released in late 2021.

Press:

"What's heard on ABRACADABRA is a variety of sonic textures — from post-hardcore guitars to electro-swing beats to beatboxing."
— David Britto, Rolling Stone India
