YOUR CARELESS SPARK

Featherweight

Born to be light Featherweight Luminously bright Taught to be kind Irresistable One of a kind Deep rosy sleep Ocean's eyes And lillywhite feet I'll keep you safe In a forgotten place Silence the weatherman A white spot on this land The winds will pass us by Hold down your featherweight And do not be afraid Down here i'll keep you high Born to be kind Featherweight Body and mind Taught to be light Your energy Will keep me warm at night Silence the weatherman A white spot on this land The winds will pass us by Hold down your featherweight And do not be afraid Down here i'll keep you high

Trojan Horse

Step inside, step inside, step inside This trojan horse Set on fire, set on fire, set on fire Once you've passed the doors Come inside, come inside, come inside Forbidden walls Terrorize, terrorize, terrorize What is all but yours As you wake the monster inside It's the first of many a time As you wake the monster inside It's the first of many a time You can fly, you can fly, you can fly But you'll hit the ground You'll get high, you'll get high, you'll get high But you're downward bound Paralyze, paralyze, paralyze What's alive and well See the signs, see the signs, see the signs Only fire can tell As you wake the monster inside It's the first of many a crime As you wake the monster inside It's the first of many a time Superheroes dance alone To supersonic unheard songs

Loose Minds

When I'm wrapped in sheets I don't get no sleep It's a simple truth Come destroy my youth When the heat is on I know where I'm from It's a simple thing It's a chance to win Let loose our minds To the other side Let loose our minds To the other side My plight Is to maintain flight Scared of the ground Afraid to be found In the mist of things It's the wind that sings It will never clear If I stay up here Let loose our minds To the other side Let loose our minds To the other side I must grab hold of the branch of a tree and descend

Let the realms of the sky be and I'll understand The one direction the ground lacks is down Once i'm found safe and sound and I'm bound by the sound Of the morning bell I am safe from hell But to cut one's wings Is one hell of a thing It is strange and new It's the thing to do We can lose our minds on the other side We can lose our minds on the other side

Majesty

Save her Majesty From the fire Put yourself on the line For a liar And save yourself If you can Save your self If you can Swear an oath to the crown It's your duty You are bound to bow down Before her beauty And brace yourself For her ways Be brave for your sake Silence is golden Do not dare to speak And if you hold it You may kiss her feet Save her majesty From her own mistakes Put yourself on the line You might up the stakes And brace yourself For her fury Blame someone else Silence is golden Do not dare to speak And if you hold it You may kiss her feet

Proximity

sunburn red and pale flickers my face we shall all prevail through these days marked an epic fail i whisper my phrase the inside starts to wail its way out of the maze riding a snail your proximity could kill me right before my eyes a circus begins players in disguise the house always wins it's not that time flies it was yesterday that we knew that something dies something else took its place winning the race your proximity could kill me it comes and goes sometimes it echoes but it is safe behind bars now where it drinks til it forgets where it sleeps til it is sober and its waves will settle down and its ripples you can take and you will for all our sakes while i ease the quake it's no use to place some blame we are all in this together we get carried away on so merry a day hey it comes and goes sometimes it echoes but it is safe behind bars now where it drinks til it forgets where it fades until it's over sunburn red and pale flicker the days we will all prevail through this phase made an epic tale it will crystallize don't let this thing derail i have opened my eyes i have seen all the lights your proximity won't kill me might thrill me

Debris

and your logic is giving up all the ropes you wanna cut just held you in place you wanna fall into pieces so i've lost track of your mind as you're leaving yourself behind you say you want to be free drifting like ice floes in the sea like floating pieces of debris it's a lie my friend this is not the end it's a lie my friend my friend come on pick it up pick your self up pick up the pieces we can fix this thing if we want to honey we can put it back together still you say you want to be free drifting like ice loes in the sea like floating pieces of debris it's a lie my friend this is not the end it's a lie my friend come alive again but it will never be the same again but it will never be the same again

Tension And Release

It's a not a miracle at all to fall in love with you It's not difficult at all but it isn't easy to undo ah-ha ah-ha ah-ha ah-ha ah-ha ... so we dance ah-ha ah-ha ah-ha ah-ha ah-ha ... on Please keep my distance to avoid your accidental touch my beautiful surrender to what I miss so much ah-ha ah-ha ah-ha ah-ha ah-ha ... so we dance ah-ha ah-ha ah-ha ah-ha ah-ha ... on and on Save me from what I want Show me what is not Tell me, it's not so Tell me, I got it wrong ah-ha ah-ha ah-ha ah-ha ah-ha ... so we dance ah-ha ah-ha ah-ha ah-ha ah-ha ... on It's a not a miracle at all to fall in love with you It's not difficult at all but it isn't easy to undo Save me from what I want Show me what is not Tell me, it's not so Tell me, I got it wrong It's not difficult at all but it isn't easy to undo Save me from what I want Show me what is not Tell me, it's not so Tell me, I got it wrong

Under Water

And the earth And the grass And the trees And the mountains Are calling your name And the birds And the bees And the bats And the owls All the same As you live Under water You grow slow and numb For all things Over

water You grow deaf and dumb And the streets And the parks The Cafés And the clubs Go about their ways And your family And friends Your attorneys And doctors Miss your face As you live Under water You grow slow and numb For all things Over water You grow deaf and dumb When we all want you to come out into the sun

Red Moon

A red moon Appears over the hills To match the humming of a tune I have forgotten how it feels When the one you're dreaming of Is lying down for love A red moon Creates a setting That is over all too soon You play the cards destiny deals When the one you're dreaming of Is lying down for love There's nobody else Nobody else But for you A red moon Is turning pale To celebrate my doom And the agony to see When the one you're dreaming of Is lying down for love With the one she's dreaming of Nobody else But for you There's nobody else Nobody else But for you There could be nobody else Nobody else But for you

Requiem for a lie

So you got rid of the lie that you hid behind Exposed to the cold of the void you find As the lights around you fade You are subject to hate Take in a handful You'll get what is yours to take No more faking a life not forever to save As the walls around you fall You feel infinitely small All around turn their backs on you For now there is not a thing you can do All alone you roam in the dark But there's always a chance For a big bang spark So you got rid of the lie that you hid behind Exposed to the cold of the void you find All the bridges behind you burn But you go on as you live and learn
