:: Biography ::

Thanks to his long experience in working as a DJ Aarón Cold was spinning in various fantastic clubs and on many well-known events. On a vast number of national and international gigs he was and still is able to demonstrate his ability. Discotheques and clubs are enjoying his unique sets that bring pure summer feeling close to them: In Germany, Italy, Switzerland, USA and - of course in his adoptive country **Spain** Aarón is an ever-welcome DJ.

Aarón is not only the guy behind the turntables, he also works as a producer. With his project **“Estepan del Sol”** he reached two times the Top10 of the German DJ-Charts (**Into my Brain** and **The Power of Trance**). Even Top-DJ's like Paul van Dyk were playing his records.

The project **“VX @ Sun Zero”** that he founded with his partner **Andreas Tanneberger** introduced a new definition of the expression **“Hardstyle”** in the german Hardstyle scene. Their Début-Album **“VX @ Sun Zero - The LordZ Of Hardstyle“** was really successful in Germany, Switzerland and the Netherlands.

Starting on November 2000 till November 2001 Aarón had his own weekly radio show called **“Sounds United”** at the radio station **“Bermudafunk”** located in the german city **“Mannheim”** where he invited many national and international DJ's.

By order of the label **“Trendline Records”** he released 4 Mix-CD's. All of them were distributed by **Sony Music**.

During the last three years Aarón retired from public life to get some new inspiration. But that's past! **“Aarón Cold”** is back - ready to take off again! So don't miss the next gig or the next track(s)!!!
