

elkvilla

A soundtrack to falling snow, late nights and the lack of a lover's hand in the cold...

Elkvilla is a new solo project of Sydney born Berlin based producer Adam Dudek. The sound is a collection of achingly acoustic & post-rock tunes, breaching a sonic spectrum that pays tribute to the influences of Elliott Smith ,Daughter and Ben Howard. Recorded and mixed in solidarity of his Berlin apartment during the winter and will be released track by track with a coming EP in 2020.
