## THYTOPPIA Apparatus Diaboli

**A**pparatus Diaboli is the second full-length release of Carinthia-based Metal band Thytopia, spearheads of their very unique brand of Rock n' Roll-induced Thrash/Death/Melodic Metal. Catchy riffs, intricate song structures and chant-along choruses, combining modern (Death) with traditional (Thrash/Rock) Metal influences accentuate Apparatus. Thematically, the album features a broad spectrum, ranging from self-deprecating party music ("Drink for your Life") to contemporary existential advice ("Metamorphosis"). The thirteen songs of Apparatus were recorded under the auspices of Oldgin Studios. The down-to-earth production aimed at preserving the raw Rock n' Roll essence of Thytopia's brand of Thrash/Death Metal while bringing out the band's technical versatility as well as stage-trained energy. Apparatus Diaboli convinces through variation as well as attention to detail that will arouse the interest of many a metal fan. Listen again if you think you know it. Listen loud if you don't know it yet.

Recorded @ Oldgin Studios

Produced by Richard Petz and Werner Smretschnig

Mixed at Oldgin Studios by Werner Smretschnig and Richard Petz

Mastered at Oldgin Studios by Werner Smretschnig and Richard Petz
