

LA ROBOKÁ

The Berlin-based pop insanity – highly entertaining with little care for genre.

**Can you dance to a genre definition?
Are you moved by labels?
Do you feel classification?**

**We neither.
But we get excited by emotions carried through sound.
So we hereby declare all categorization for our music from now on as nonsense.**

La Roboká**

This formation came into existence when Lady K, a classic soprano singer, and Robulus, a film composer, wanted to mix certain styles they liked into songs. We are happy when you like them too.

Meet Lady K & Robulus. Who are they exactly? Who knows for sure? Lady K has an ongoing history on opera stages. Robulus not only composes film music but is also working as a director. They knew each other for a long time until they saw their potential during a film production they both worked on.

After dropping the first single BIPOLAR, their debut EP „MASKALICIOUS“ is available since May on Spotify, iTunes and many other streaming-platforms.

The first video MISOPHONIC was released in May, followed by the new single KLAGELIED EINER ENTTÄUSCHTEN in September.

With La Roboká they share their common interest in exciting, dancable, captivating music and putting on an extra layer of theatrics. They jump between genres, give you an emotional anthem to sing along and then surprise you with an ecstatic danceable electropop tune.

A woman with voluminous, curly blonde hair is the central figure. She has bright red face paint applied to her cheeks and nose, and is wearing a vibrant red, patterned halter-neck dress. She is looking directly at the camera with a slight smile. The background is a soft-focus outdoor setting with green foliage and a wooden path.

„Genre-bending and creating their own universe, the sound illustrates a transcending vision to go with it. Certainly not mainstream, if you find yourself just listening to one particular genre of music, then La Roboká may not be for you.“

Reyt Good Music

„La Roboka is theatrical and a little weird. However, as is the case with all great avant-garde artists (think Devo or Laurie Anderson) what may seem silly on the surface takes on a much deeper meaning once you become invested.“

StativDive

„La Roboká's upcoming single "Misophonic" may be the juiciest hit of Pop insanity that we've been treated to this year.“

A&R Factory

„...this duo writes music with honesty, and their stunning performances are a direct reflection of their diverse approach and passion for the craft.“

The Bandcamp diaries

„The oddly danceable theatrics are both niche and mass, as it digs deep into your skin, marking you with a sense of order and calm.“

Comeherefloyd

„...operatic vocals meet with retro synths and high-energy drum lines, all of which creates an almost sci-fi-like, cinematic explosion before you.“

Stereo Stickman

„In the few tracks that we have been sent, there is such a diverse spectrum of different sounds and even genres that they each fit into.“
