

PHASE SHIFT

Progressive Metal from Cologne

The band Phase Shift from Cologne formed in 2004.

Due to their differing backgrounds in music – from Heavy- and Death Metal, Songwriter music and Punk, to electronic music – this results in an up-to-date progressive form of Metal that showcases a heavy thrust, as well as catchy choruses.

In February of 2014 Phase Shift released their newest Album. "Lack of Silence" was self-produced and recorded live.

The lyrics contemplate contemporary society while maintaining the high energy of the music.
