Provokantes **Sounddesign** als kreatives Mittel revolutionärer Freiheit

Utopie, die sich **Gehör** verschafft

Moderne **Klangmythen** zum Leben erweckt

Ein rhythmisches **Manifest**, jenseits industrieller Richtcharakteristiken

Tanzt die **Architektur** in beschwörenden Hüllkurven

Alchemie der Atmosphäre zwischen Wahn und **Bewegung**

Akustische **Polarisierung** als kollektiver Katalysator

Digitalisierung der evolutionären **Komplexität**

Musikalischer **Exorzismus** diabolisch anmutender Barrieren

Frischer **Fluxus** für den Geist

Das Projekt – Studio wurde im Oktober 2003 von **Tobias Krämer** (Tomahawk) und **Alexander Seewald** (Doc. AtmosfearCrush) gegründet.

Beherbergt in den Räumen der alternativen Künstler Arbeits- und Wohngemeinschaft Kultur Fabrik Worms, wuchs hier ein beschwörendes Künstlerkonglomerat heran. An den extravaganten Happenings trifft sich in regelmäßiger Unregelmäßigkeit ein Kern aus zehn experimentierfreudigen Künstlern. In diesem interdisziplinären Mikrokosmos entstehen die zahlreichen Veröffentlichungen der dreiundzwanzig (!!!) [Esc.]schen Projekte.
