

# THE CARBONS

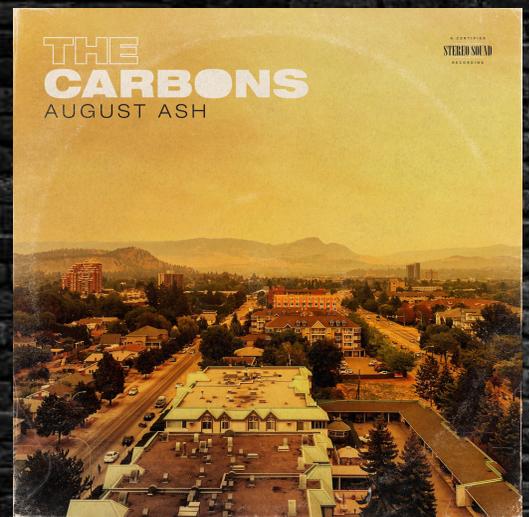

The Carbons team up with Juno-nominated (The Glorious Sons) producer John-Angus MacDonald from The Trews to record 3 new singles as a follow up to their debut LP, *August Ash*. The LP has taken them on two tours, including the '10,000 km Cross Canada Tour'. The successes of these tours confirmed The Carbons as a local supporting act for Pop Evil and Royal Tusk.

5 weeks after *August Ash's* world-wide release, The Carbons completed their western Canada tour with highs from sharing groove rock with over 2000 people at the SMS Equipment Stadium and supporting notable Canadian touring acts The Wild! and Aviator Shades. Canadian radios 106.9FM The Wolf, 99.3FM The Goat, 104.9 The Wolf and 97.9 FM Rock featured The Carbons with interviews and radio play throughout the tour. Later that year, the '10,000km Cross Canada Tour' was realized and encompassed the country. The band thrived as they felt the energy of Canadian audiences from all walks of life. Their tour was heightened after meeting John-Angus in Toronto and discussing future song production. The trio is now back from tour and works diligently on upcoming recording sessions as well as plans for two upcoming tours, the Canadian 'Ski Bum Tour' and German 'Eurotrip Tour'.

Tomy Thisdale - Guitar & Vox

Nathan Murdoch - Drums & Vox

Ben Davis - Bass

*August Ash* LP - May 12, 2018

Produced by Dan Harden and  
The Carbons
