

"**Than.ey**" were formed in **2014** in Germany.

The Project was formed by 3 members of the greek band "**Rosebleed**" which had a **10 year long** go in Greece as one of the most promising upcoming acts. After moving to Germany, they discovered that Danai (frontwoman) has been working on some ideas which until then, remained private. These ideas gave the band the material and inspiration needed to form a whole new project based on the new sounds. Having a new member, Florian, on bass they released their very first single "**Showie**" in March 2014.

Recording & producing **all music themselves**, their next single titled '**King Snake**' came a month later followed by the band's first **DIY video**. The idea of the video was **conceived by Danai** and was made possible after a lot of hard work by the band and some really close friends. It was all released under Than.ey's alter ego, a small production Company named '**Selini Project**' and our Label '**Enfants Terribles Records**'.

One year later came the next release, a brand new DIY video for the Song 'The Great Lighter' .

Than.ey's **DEBUT** mini Album '**XI**' (11-eleven) includes the first 3 singles as well as 3 brand new Tracks, Little Things, Always Compare and Father, released in Oktober 2016. Songs about long gone innocence, hope and salvation.

Going off with Triphop feel, groovy beats and dark atmospheres and slowly coming to find some of the pagan and anatolian elements of the bands geographical roots, it takes you through the complete spectrum of the band's influences and musical taste.

Until now actually beeing just a Studio project, Than.ey's immidiete future plans is to perform their first shows around Germany and Holland in the beginning of 2017 as well as making a new series of live videos performing the Songs of 'XI' in their rehearsal studio.
