ALTERNATIVE-ROCKBAND

5 guys from Germany combine sharp guitars with cutting synthesizers.

Tell Me About is a band project with a big vision and a straight look into the future.

HERE YOU WILL FIND ANYTHING ABOUT US

OUR MUSIC

Through new sounds and fresh ideas we want to give the rock genre a contemporary touch. Every writing process is a challenge for us to find new spheres in our sound spectrum.

We follow a modern release plan. Releasing several tracks bundled on one album is no longer in line with the zeitgeist and common listening consumption behavior. We release content monthly. Every two months with music video. This gives each work its own focus.

The band doesn't lose attention so fast in the short-lived social media lifestyle and the feedback of the fans gives us the possibility to react faster, because we don't have to wait several months or years for the next release.

Each song gets its own visuals, artwork and merch design. We put a lot of emphasis on professional standards, both in audio editing and in our visuals.

OUR MUSICVIDEO

It was only logical to choose "Echos" as the first song. Here our sound is represented as unadulterated as possible.

The basic theme of the track is about schizophrenia. It was very important to us not to repeat the same mistake of many artists before us and not to work up the problems of this disease in a clichéd way. For this we did a lot of research and also talked to people affected.

The music video was produced by ourselves. Of course we got support from our friends for things like lighting and equipment, but there was no production company or film production behind the project.

Our means were very limited, so we are very proud of the final product.
