

YMI

Different. Same. Sane. Insane.

What happens when you mix bored Brazilian teenage adulthood with German positive mental attitude, vegan straight edge, and a borderless fuck the world approach?

Well, we don't know either, but we are eager to find out.

Three different characters coming from very different backgrounds exploiting their smallest common denominator: the love for hard music and dancing crowds.

Approaching the punkrock community from their HQ in Munich/Germany with intrinsically motivated songs about social media, social contacts, and social distortion.

Established 2019.

Built to last.
