ALTERNATIVE ROCK — THE SOUND OF SEVENRANGE

In your ear! That's where **SEVENRANGE** have come to stay. This female-fronted band was formed in 2008 in Bonn, Germany, its five members sharing a desire for creating melodic rock music that will be a delight to your ears!

Within the wild jungle that is the genres of today's rock and pop music scene **SEVENRANGE** have dedicated themselves to good old alternative rock, adding their very own, special note to this well-known branch. Their intuitive way of writing songs brings to life a repertoire of many facets - ranging from joyful pop songs to high-octane tunes and bitter-sweet ballads.

What's more, this vivacious mixture, their passion for music topped up with a whole lot of fun makes their live shows a memorable experience that will stay in the ears and the hearts of their audience.

"The whole is greater than the sum of its parts." - This phrase describes perfectly what **SEVENRANGE** is all about.

Powerful drums, grooving basslines, saucy lead guitars married with powerful rhythm guitars and a unique, intense singing voice - these are the elements that make up the frisky sound of **SEVENRANGE**. Yet there's always a personality behind each instrument and it is not only the notes that form the music. Each member of the band brings their very own flavour to the tunes - thus making **SEVENRANGE** the band that will stay in YOUR ear, too!
