

### **Jack Enox - Lit by Stars feat. Ant Utama**

"Lit by Stars" was written to look to the future with hope. An increasingly digitalized world holds a multitude of fears, especially for the younger, not-yet-sedentary generation. The fast pace and constant change of lifestyle and the disconnection from one's own identity are just two of them. But hidden in this constant hectic pace, driven deep into all areas of life by digitalization, is one of the greatest opportunities for our humanity. Information and knowledge are accessible to everyone everywhere and at all times. Even the opportunity to create a unique environment where the rules are made by each individual, to push boundaries and develop their full potential. Beyond that, to achieve the greatest satisfaction possible. Followed by even greater possibilities through technologies we don't even know yet. "Lit by Stars" embeds all of this, the global issues facing humanity, but also humanity's greatest opportunity, in a futuristic, energizing and uplifting atmosphere. Producer and artist Jack Enox had not been involved in production since 2012 and decided to start something new in 2021, bringing in other top artists. Thus was born this collaboration with Ant Utama, a well-known singer and songwriter, also known from Voice of Germany / Netherlands.
